# Signing PDF Documents from Your Phone or Tablet

## How to sign a PDF document using an iOS device

1. Open a PDF document you'd like to sign digitally in an app that supports Markup:
   - **Files:** Open a PDF you'd like to sign, then tap Markup.
   - **Messages:** Attach a photo/PDF, tap it in the bubble and choose Markup.
   - **Safari:** Open a webpage, choose **Create PDF** from the Share menu and hit Markup.
   - **Mail:** Open a message, tap an attachment and choose Markup.
   - **Photos:** Tap a photo, choose **Edit**, tap **"…"** and select Markup from the popup menu.
   - **Notes:** Tap a document in your note, then choose Markup from the Share menu.
   - **iBooks:** Open a PDF and tap Markup at the top.
2. Tap **"+"** at the bottom of the Markup interface.
3. Tap the **Signature** icon from a popup menu.
4. Sign your name with your finger, Apple Pencil or another stylus.
   **TIP:** If you already have previously saved signatures, choose one from the menu.
5. Feel free to drag your inserted signature to move it around freely or resize your digital signature by using the blue buttons to grow or shrink the surrounding box.
   **TIP:** To change the ink color, tap the digital signature you just applied to a PDF document and select any of the color circles provided at the bottom of the Markup interface.
6. Tap **Done** to save the changes.

## How to sign a PDF document using an Android device

Android users should download the Adobe Fill & Sign app from the Play Store.

1. Select your PDF and open using Adobe Fill & Sign.

2. Select the fountain pen icon to create a signature or initials.

3. Use your finger to draw your signature above the blue line.

4. Tap the fountain pen again and select your signature.

5. Drag and scale your signature.

6. Select the share icon to save or share your PDF.
